## **INSTITUTE VISION & MISSION**

### **VISION:**

APSIT aspires to be a premier institute producing globally competent engineering professionals to contribute towards socio-economic growth of India.

### **MISSION:**

To provide conducive and collaborative environment to meet contemporary & future Engineering challenges by project based and value-added education with the support of trained faculty

## **DEPARTMENT OF INFORMATION TECHNOLOGY**

### **VISION:**

To be a prime centre of excellence by transforming students into globally competent IT professionals.

### **MISSION:**

1. To develop, support and maintain state-of-art infrastructure to serve as a potent resource hub for IT industries.
2. To inculcate the problem solving, analytical, logical skills to promote the culture of creativity and innovation among the students.
3. To adapt with the transformation of the technology emphasising on interdisciplinary studies, exposure to emerging technologies and imbibing high standards of professional ethics and social responsibilities in all endeavor

## **PROGRAM EDUCATIONAL OBJECTIVES (PEO's)**

- PEO1      **PREPARATION:** To prepare students for successful careers in industry, research and institutions of higher learning with social sense and responsibility.
- PEO2      **CORE COMPETENCE:** The graduating professionals from Information technology will have a wide spread background of sciences, mathematics and fundamentals of Information Technology to solve dynamic universal industrial problems.
- PEO3      **BREADTH:** To create graduates for competitive and innovative solutions to industry and society through projects by application of multidisciplinary knowledge inculcating team work and management skills.
- PEO4      **PROFESSIONALISM:** To enrich students with leadership quality, professional ethics and entrepreneurial skills through various devised programs
- PEO5      **LIFE LONG LEARNING:** To promote student awareness and commitment to life long learning for professional engagement to benefit society at large.

## PROGRAM OUTCOMES (POs)

PO's	OUTCOMES
PO1	An ability to apply knowledge of mathematics, science and engineering fundamentals in the field of computing.
PO2	Critically identify, formulate and evaluate emerging topics and the recent development in the field and Provide solution to futuristic engineering problems.
PO3	The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.
PO4	Ability in requirement gathering, design and implementation of software with computer systems to analyze and interpret the data.
PO5	An ability to use the techniques, logical and analytical skills and modern engineering tools necessary for engineering practice.
PO6	An ability to design a system component or process to meet desired needs within realistic constraints such as economic, environmental, social, cultural and safety issues.
PO7	An ability to understand an impact of engineering knowledge towards society and environment with need to sustainable solutions.
PO8	To inculcate professional ethics.
PO9	An ability to function effectively, individually and in teams to accomplish a common goal.
PO10	An ability to communicate solutions of complex computing problems effectively using reports and presentations to wide range of audiences.
PO11	To instill leadership and managerial skills in multidisciplinary environment.
PO12	Recognition of the need for and an ability to engage in life-long learning.

## PROGRAM SPECIFIC OUTCOMES (PSOs)

- PSO1 To use modern computer languages, environments and platforms in creating innovative carrier paths in the areas of database, data analysis and application development.
- PSO2 To apply theoretical foundations of Information technology in developing solutions for engineering problems that meet automation needs of industry and society.
- PSO3 To design and implement efficient real-time solutions using evolving knowledge of information technology by demonstrating the practices of professional ethics and the concern for societal and environment wellbeing
